**PL6721**

HANDS-FREE PEOPLE DOOR ENTRY MONITOR 4.3. SB2

People series colour door entry monitor for Simplebus 2 system. Hands-free version with 4.3-inch / 16:9 screen. Even when switched off, the video door entry monitor can be programmed using a smartphone and the MyComelit app, which can be downloaded free of charge. It is supplied with a metal surface-mounted backplate, which ensures it is firmly and securely anchored, and with a line distribution terminal. It has 6 mechanical buttons on the front panel with icons identifying the factory-set function. 3 of the buttons are backlit to ensure ease of use: green for the 'audio' function, red for the 'end communication' function, and white for the 'electric lock' function. 3 buttons are programmable and pre-configured to call the porter switchboard, control an actuator, and perform self activation. The buttons at the centre of each row are tactile to guide visually impaired people. On the right side of the door entry monitor, on the other hand, there are buttons to activate the Silent mode with a red indicator light and related icon, as well as buttons to access the menu for adjusting brightness, contrast, colour and the ringtone volume. It comes as standard with the floor door call, which can also be programmed for other functions. Dimensions (L x H x D): 135 x 170 x 23 mm
